Redeveloping North Campus
Why we need to do it

Aging Buildings
McMahon, Haggett and McCarty were all built in the 1960s.

Maintenance is Expensive
Old buildings' infrastructure more expensive to maintain than replace.

Bursting at the Seams
Current campus housing occupancy is 112% of capacity.

Students Love the New Buildings
Satisfaction high for new buildings due to improvements not possible through renovation.

Renovation Costs More Than New Construction
Renovating the older buildings is $80 sq. ft. more expensive.

ADA Access Issues
New buildings can better meet the needs of students with disabilities.

New Buildings Increase the Number of Students Who Can Live On Campus
